INDEX TO TECHNICAL NEWS BULLETIN 1939, NUMBERS 261 TO 272, INCLUSIVE

A

Page

Abrasive resistance of bricks 113
Absorption, internal, of gamma rays in radium, beryllium, neutron sources 117
Absorptions, difficult, bubbler tip of Pyrex glass 54
Accelerometers, new method of testing 2
Acid, perchloric or sulfuric, volatilization of metallic compounds from solutions in 35
Acidity of leather, effect on stability 67
Acids, organic, solubility of colored glazes in 37
Acrylic resins as denture base materials 85
Advisory committee on metallurgy, 1939 meeting 55
Aggregates, coarse, Simplified Practice Recommendation 74
Aging tests of record paper 95
Air capacitors, energy losses 59
Air-conditioning requirements of printing plants 116
Air permeability of bricks 73
Air-setting refractory mortars 18, 72
Air voids in fresh concrete, measurement 74
Aircraft fabrics, doped 27
Aircraft, thermal insulation 85, 96
Airplane-camera lenses, resolving power and distortion 53
Airplane dopes 94
Airplane electric systems, optimum voltage 106
Alloys for electric heating elements 58
Aluminum and antimony, effects on cast red brass 56
Aluminum ion in papers 126
Aluminum, polished, action of latex on 67
American Association of Physics Teachers, annual meeting 10
American Congress of Physical Therapy honors W. W. Coblentz 98
American Physical Society, annual meeting Dec. 27–29, 1938 10
American Physical Society, meeting of Apr. 27–29, 1939 42
Ampere absolute determination 43
Antarctic expedition, 1939 100
Antimony and aluminum, effects on cast red brass 56
Arabic manuscripts, fibers of old 13
Areas, cross-sectional, of structural members, determination 114

B

Backflow prevention in over-rim water supply fixtures 115
Balances, magnetic damping of, trouble with 118
Ball clays, American and English, base exchange capacities, effect of organic matter 107
Base-combining capacity of wool 47
Base exchange capacities of American and English ball clays, effect of organic matter 107
Bearing surfaces, measuring wear 48
Beenzin indicators, polar structures 126
Beryllium, radium neutron sources, internal absorption of gamma rays 117
Boards, buildings, properties of fiber 38
Boiler furnace slags 49
Book papers, experimental, printing tests 27
Boron in special glasses, determination 49
Bottles, solubility of glass used for making 112
Boundary layer, turbulence and 1
Brass, cast red, effect of pouring temperature on properties 127
Brass, cast red, effects of aluminum and antimony 56
Brick, building, standard tests of 17
Brick cavity-wall construction, structural properties 114
Brick-mortar joints, permeability and strength 38
Brick, porosities in different sections of a 18
Brick, reinforced and brick-tile cavity-wall constructions 114
Brick walls, structural properties 17
Bricks, abrasive resistance 113
Bricks, air and water permeability 73
Broadcast of standard of musical pitch 106
Bubbler tip of Pyrex glass for difficult absorptions 54
Building boards, fiber, properties 38
Building codes, preparation and revision 75

C

Cadmium-cadmium sulfate half-cell for measuring earth potentials 44
Cadmium coatings on steel, measuring thickness 91
Calendar reforms, proposed 96
CaO-Fe_2O_3-SiO_2, system 37
Calibration of large testing machine 103
Calking materials, plastic 19
Camera error, relation to photogrammetric mapping 14
Camera lenses, airplane, resolving power and distortion 53
Capacitors, air, energy losses 59
Cans for fruits and vegetables, proposed standard sizes 80
Carbon dioxide and ethylene oxide, analysis of mixtures 14
Carbon dioxide for extinguishing fires 99
Carbon, microchemical determination, handling hygroscopic substances 34
Carbon monoxide, heat and free energy of formation 35
Cartridges, metallic, simplification of varieties and classification 50
Cast iron, elastic properties 16
Cathode, dropping mercury, for estimation of cystine 54
Cellulose acetate sheeting for protection of documents 33
Cellulose fibers, fluidity test for quality 27
Cement clinker, portland, use of mineralizers in manufacture 84
Certification plan 79, 96
Chemistry and physics, assignment of uncertainties to the data of 87
Chinaware, fine crystal structure 8
Chlorine, second spectrum 96
Chromaticity-scale coordinates, rectangular uniform 14

	Page
Chromium-gold resistance alloy	43
Clamp, toggle, for rubber tensile specimens	46
Clay, plastic, relation between moisture content and flow-point pressure	20
Clays, ball, American and English, base exchange capacities, effect of organic matter	107
Clays, refractory, changes accompanying conversion into firebrick	93
Cleaning materials, new circular	102
Coarse aggregates, Simplified Practice Recommendation	74
Coating, zinc and cadmium, on steel, measuring thickness	91
Coaxial, helical wires, two, mutual inductance and force between	16
Codes, building, preparation and revision	75
Coils, improved, use, in determining absolute value of ampere	43
Collagen, electrophoresis	86
Color tolerances, specification	45
Color triangle, Maxwell	14
Colorimetric determination of rhenium and molybdenum	107
Colors, method of designating	94
Columns, laboratory rectifying, reflux regulator and head for	106
Commercial standard for domestic grades of Douglas-fir plywood	28
Commercial standard for Douglas-fir stock doors	29
Commercial standard for interchangeable ground-glass joints, stopcocks, and stoppers	64
Commercial standard for solid hardwood wall paneling	103
Commercial standard for woven dress fabrics	102
Compressive tests of thin-wall materials, "Pack" method	57
Concrete as X-ray protection	50
Concrete-block cavity-wall construction, performance	104
Concrete-block walls, structural properties	17
Concrete, effect of freezing and thawing, sonic method for studying	127
Concrete floors, relative wear resistance	112
Concrete-foundation wall construction, Nelson pre-cast	128
Concrete, fresh, measurement of air voids in	74
Cones and tubes, paper, simplification of sizes	119
Conference of State Utility Commission Engineers, seventeenth	60
Conference on Weights and Measures, Twenty-ninth National	63
Containers, silver-lined	56
Copper and lead, determination, in nitric acid solution	55
Copper-copper sulfate half-cell for measuring potentials in the earth	36
Copper rods, cold-worked, development of fibrous texture	56
Corrosion data, soil, engineering significance	6
Corrosion specimens, soil, removal	92
Corrosion studies, soil-corrosion-resistant materials and special tests	104
Corrosivity of soils, methods for estimating	115
Cosmic-ray observations in the stratosphere	118
Coverings, floor, indentation tests	48
Cross-sectional areas of structural members, determination	114
Crucibles for melting metals	57
Crucibles, preparation from special refractories by slip casting	83
Crystal structure, fine, of chinaware	8
Cystine, estimation of, by the dropping mercury cathode	54
Cystine in wool, photochemical decomposition	117

D

	Page
Dams, flashboards on	71
Density of glasses as a function of composition	37
Dental materials, hydrocolloidal impression	101
Denture base material, acrylic resins as	85
β–*d*–2–desoxygalactose, preparation and properties	34
Detector for radium	66
Diamond tool for indentation measurements	65
Dielectric constant, edge correction in determination	59
Diffraction patterns, X-ray, of rubbers	66
Diffusion, turbulence and	2
2,6-dimethylheptane, comparison with isononane	26
Distillation column, rotary, efficiency	45
Distortion of airplane-camera lenses	53
Dithizone, use in determining solubility of lead sulfate	6
Documents, protection of, with cellulose-acetate sheeting	33
Doors, stock, Douglas fir, commercial standard	29
Doped fabrics for aircraft	27
Dopes, airplane	94
Douglas-fir plywood, domestic grades, commercial standard	28
Douglas-fir-stock doors, commercial standard	29
Dress fabrics, woven, commercial standard	102
"Dun-Ti-Stone" wall construction, structural properties	104
Dye adsorption for indicating relative solubility of glass	6

E

	Page
Earth potentials, cadmium-cadmium sulfate half-cell for measuring	44
Earth potentials, copper-copper sulfate half-cell for measuring	36
Edge correction in determination of dielectric constant	59
Elastic properties of cast iron	16
Electric equipment and lines, safety rules for operation	10
Electric systems, airplane, optimum voltage	106
Electric heating elements, alloys for	58
Electric hygrometer, improved	124
Electrical Safety Code, National, part 4	10
Electricity, new units	42
Electrodes, silver-silver halide, reproducibility	26
Electrolysis measurements, cadmium-cadmium sulfate half-cell for	44
Electrolysis measurements, copper-copper sulfate half-cell for	36
Electrophoresis of collagen	86
Electrophoretic studies of silk	86
Electrophoretic studies of wool	102
Enamel frits, ground-coat, thermal expansion	16
Enamels, effects of humidity and composition	91
Ethylene oxide and carbon dioxide, analysis of mixtures	14
Expansion measurements, Fizeau interferometer for	66
Eyes, safety code for protection	10

F

	Page
Fabrics, doped, for aircraft	27
Fabrics, woven dress, commercial standard	102

	Page
"Fabrihome" constructions for walls and partitions, structural properties	20
Fiber building boards, properties	38
Fibers, cellulose, fluidity test for quality	27
Fibers, commercial, microscopic methods for identifying	54
Fibers of old Arabic manuscripts	13
Field-intensity measurements, radio	60
Film, photographic, for preserving records	68
Fire extinguishment with carbon dioxide	99
Firebrick, changes accompanying conversion of refractory clays into	93
Fizeau interferometer for expansion measurements	66
Flame proofing of textiles	47
Flashboards, tests	71
Floor coverings, indentation and recovery	48
Floor, steel, Keystone beam, properties	29
Floor, steel, Wheeling long-span, properties	48
Floors, concrete, relative wear resistance	112
Floors, "Frameless-Steel"	4
Floors, "Pre-Fab", structural properties	84
Floors, sound insulation	58
Floors, wood-frame, structural properties	128
Flow-point pressure and moisture content of plastic clay, relation between	29
Fluidity test for quality of cellulose fibers	27
Foundation wall construction, Nelson pre-cast concrete	128
Fractionation of petroleum	15
Frame, rigid, welded-steel, strength of	71
"Frameless-Steel" walls, partitions, floors, and roofs	4
Freezing and thawing, effect on concrete, sonic method for studying	127
Frequencies, radio, graphs of maximum usable	3
Frequencies, radio, maximum usable	60
Fruits, cans for, proposed standard sizes	80
Fuels for internal-combustion engines, knock rating	90
Function, approximation to a, of one variable from a set of its mean values	87
Fungicidal properties of silver	56
Furfural and methylfurfural, quantitative formation from pentoses and methylpentoses	85
Furnace, boiler, slags	49

G

	Page
Gamma rays, internal absorption, in radium, beryllium, neutron sources	117
Gas meters, wet, test, errors	90
Gases, permeability of neoprene to	8
Gasolines, knock rating	90
Geophysical research, role of hydraulic laboratories in	101
Glass electrode, effect of solubility of glass on behavior	25
Glass for making bottles, solubility	112
Glass phase and physical properties of whiteware bodies, effects of rate of heating	7
Glass, pyrex-platinum seals	64, 87
Glass, relative solubility, as indicated by dye absorption	6
Glass, solubility of, effect on behavior of glass electrode	25
Glasses, density as a function of composition	37
Glasses, special, determination of boron	49
Glassware, railroad signal	53
Glazes, colored, solubility in organic acids	37
Gold-chromium resistance alloy	43
Grinding wheels, sizes, simplification of	108
Ground-coat enamel frits, thermal expansion	16
Ground-glass joints, stopcocks, and stoppers, interchangeable, commercial standard	64
Guard-ring method of measuring dielectric constant	59

H

	Page
Half-cell, cadmium-cadmium sulfate, for measuring potentials in the earth	44
Half-cell, copper-copper sulfate, for measuring potentials in the earth	36
Handles, hickory, simplification of grades	119
Hardwood wall paneling, solid, commercial standard	103
Heads, safety code for protection	10
Heat and free energy of formation of water and of carbon monoxide	35
Heat capacity and heat of vaporization of water	89
Heat of fusion of ice	125
Heating, effects of rate, on glass phase and physical properties of whiteware bodies	7
Heating elements, electric, alloys for	58
Heats of combustion of tetramethlmethane and 2-methylbutane	35
Helical wires, coaxial, mutual inductance and force between	16
Heterostatic loading	4
Hickory handles, simplifications of grades	119
Humidity, effect on enamels	91
Hydraulic laboratories in geophysical research	101
Hydrocarbon, rubber, behavior in molecular still	46
Hydrocarbons, adsorption on silica gel	26
Hydrocolloidal impression materials for use in dentistry	101
Hydrogen-ion activity, potentiometric method for measuring	126
Hydrogen ion in papers	126
Hydrogen, microchemical determination, handling hygroscopic substances	34
Hygrometer, electric, improved	124
Hygroscopic substances in the microchemical determination of carbon and hydrogen	34

I

	Page
Ice, heat of fusion	125
Impression materials, hydrocolloidal, for use in dentistry	101
Indentation measurements, diamond tool for	65
Indentation tests of floor coverings	48
Inductance, mutual, and force between two coaxial helical wires	16
Industrial uses for silver	56, 81
Inspection methods for pipe lines	72
Insulating material, dielectric constant	59
Insulation, sound, of walls and floors	58
Insulation, thermal, for aircraft	85, 96
Interferometer, Fizeau, for expansion measurements	66
Interferometer for measuring dimensional changes in rubber	116
International Scientific Radio Union and Institute of Radio Engineers, joint meeting	60
International Temperature Scale, and some related physical constants	36

Page

Ionization in the ionosphere and sunspot numbers, correlation between 87
Ionosphere storms 60
Iron-carbon alloys, high-purity, transformation during quenching 70
Iron, cast, elastic properties 16
Iron, high-purity, preparation 70, 107
Iron, second spectrum, pressure displacements 69
Isononane, comparison with 2,6-dimethylheptane 26

J

Joint fillers for masonry 19
Joints, brick-mortar, permeability and strength 38
Joints, ground-glass, interchangeable, commercial standard 64

K

Keystone beam steel floor, properties 29
Knock rating, the precision of 90

L

Latex, action on polished aluminum 67
Lead and copper, determination in nitric acid solution 55
Lead sulfate, solubility in solutions of sulfuric acid 6
Leather, deterioration, influence of natural nontannins 86
Leather, shrinkage temperature 67
Leather, stability 67
Lenses, airplane-camera, resolving power and distortion 53
Light, new units of 42
Light-weight structures 4
Lime, particle size and plasticity 84
Lithography, offset paper, manufacture 108
Loading, heterostatic 4
Low-temperature scale for calibrating thermometers 25
Lukenweld rigid steel frame, strength of 71
Lungs, safety code for protection 10

M

Magnetic damping of balances, trouble with 118
Magnetic-testing apparatus 94
Manuscripts, old Arabic, fibers of 13
Mapping, photogrammetric, relation of camera error to 14
Masonry walls, permeability 5
Masonry walls, structural properties 17
Materials, thin-wall, "pack" method of compressive tests 57
Maxwell color triangle, modified 14
Mercury cathode, dropping, for estimation of cystine 54
Metallic compounds, volatilization from solutions in perchloric or sulfuric acid 35
Metallurgical advisory committee, 1939 meeting 55
Metals, crucibles for melting 57
Meteorograph, improved, on Olland principle 3
Meter, radium exposure, designed as protective device 105
Meter, stratosphere ultraviolet 24
Meters, gas, wet, test, errors 90
2-methylbutane, heat of combustion 35
Methylfurfural, formation of methylpentoses 85
Microchemical determination of carbon and hydrogen, handling hygroscopic substances in 34
Microscopic methods for identifying commercial fibers 54
Mineralizers, use, in manufacture of portland cement clinker 84

Page

Mirrors of polished aluminum, action of latex on 67
Moisture content and flow-point pressure of plastic clay, relation between 29
Molybdenum and rhenium, separation and colorimetric determination 69, 107
Mortar joints in brickwork, permeability and strength 38
Mortars, air-setting refractory 18
Mortars, refractory-bonding, air-setting 72
Musical pitch, standard, continuous broadcast 106

N

National Bureau of Standards as a service organization 41
National Electrical Safety Code, part 4 10
Nelson pre-cast concrete foundation wall construction 128
Neoprene permeability to gases 8
Neutron, radium-beryllium sources, internal absorption of gamma rays 117
Nitric acid solution, determination of copper and lead in 55
Nontannins, natural, influence on deterioration of leather 86
Northeastern States, survey of roofing materials 129

O

Offset paper, experimental manufacture 108
Olland principle, meteorograph 3
Optical dispersion of rubber 96
Organic matter, effect on base exchange capacities of American and English ball clays 107
Oxidation of steels, rate of 71
Oxygen of high purity, preparation of 25
Ozone in the stratosphere, distribution 44
Ozone in the stratosphere, instrument for measuring 60

P

"Pack" method for compressive tests of thin-walled materials 57
Paneling, wall, solid hardwood, commercial standard 103
Paper cones and tubes, simplification of sizes 119
Paper, offset, experimental manufacture 108
Paper, old Arabic 13
Paper, record, comparison of accelerated and normal aging 95
Papers, aluminum ion and hydrogen ion in 126
Papers, book, experimental, printing tests 27
Papers, determination of pentosans in 33
Papers, pH values of 47
Particle size and plasticity of lime 84
Partitions, "Fabrihome" construction 20
Partitions, "Frameless-Steel" 4
Partitions, "Pre-Fab," structural properties 84
Partitions, wood-frame, structural properties 128
$PbO-B_2O_3-SiO_2$, the system 83
$PbO-SiO_2$, the system, X-ray studies of compounds 105
Pentosans, determination in pulps and papers 33
Pentoses, quantitive formation of furfural from 85
Perchloric acid, volatilization of metallic compounds from solutions in 35
Permeability and strength of brick-mortar joints 38

Page

Permeability of bricks, air, and water 73
Permeability of masonry walls 5
Permeability of neoprene to gases 8
Permeability of organic polysulfide resins to hydrogen 83
Petroleum fraction, midcontinent, composition 15
Petroleum, fractionation of 15
Petroleum fractions, comparison 26
pH values of papers 47
Photochemical decomposition of the cystine in wool 117
Photogrammetric mapping, relation of camera error to 14
Photographic film for preserving records 68
Physical constants related to International Temperature Scale 36
Physical Society, American, annual meeting Dec. 27–29, 1938 10
Physical Society, American, meeting of Apr. 27–29, 1939 42
Physics Teachers, American Association, annual meeting, Dec. 28–30, 1938 10
Pipe, buried, removal of specimens 92
Pipe-line inspection methods 72
Plastic calking materials 19
Plasticity and particle size of lime 84
Platinum-pyrex glass seals 64, 87
Plumbing systems, backflow prevention in 115
Plywood, Douglas fir, domestic grades, commercial standard 28
Plywood, use of, in wall construction 128
Polar structure of some benzein indicators 126
Polishing materials, new circular 102
Porosities in different sections of a brick 18
Portland cement clinker, use of mineralizers in manufacture 84
Potentials in the earth, a cadmium-cadmium sulfate half-cell for measuring 44
Potentials in the earth, a copper-copper sulfate half-cell for measuring 36
Potentiometer of high accuracy 36
Potentiometric method for measuring hydrogen ion activity 126
Pouring temperature, effect of, on properties of cast red brass 127
"Pre-Fab" walls, partitions, and floors, structural properties 84
Preservation of records on photographic film 68
Pressure displacements in second spectrum of iron 69
Printing plants, refrigeration and air-conditioning requirements 116
Printing tests of experimental book papers 27
Protection of documents with cellulose-acetate sheeting 33
Protection, X-day, economic features 50
Pulps, determination of pentosans in 33
Pure iron 107
Pyrex-platinum glass seals 64, 87

Q

Quality in textiles, tests for 95
Quenching of high-purity iron-carbon alloys, transformation during 70

R

Radio field-intensity measurements 60
Radio frequencies, graphs of maximum usable 3
Radio sonde, the 23, 123
Radio soundings and weather prediction 23, 123
Radio Union, International Scientific, and Institute of Radio Engineers, joint meeting 60

Silver Research Project to be continued 51
Silver-silver halide electrodes, reproducibility 26
Simplification of grades of hickory handles 119
Simplification of shipping tags 50
Simplification of sizes and varieties of paper shot shells 39
Simplification of sizes of grinding wheels 108
Simplification of sizes of paper cones and tubes 119
Simplification of varieties and classification of metallic cartridges 50
Simplified Practice Recommendation for coarse aggregates 74
Slags, boiler-furnace 49
Slip-casting for preparing crucibles from special refractories 83
Snow temperatures and densities, measuring 100
Society of Rheology, annual meeting 111
Soil-corrosion data, engineering significance 6
Soil-corrosion specimens, removal 92
Soil-corrosion studies, 1937—Corrosion-resistant materials and special tests 104
Soils, corrosivity, methods for estimating 115
Solubility of colored glazes in organic acids 37
Solubility of glass, effect of, on behavior of glass electrode 25
Solubility of glass, relative, as indicated by dye adsorption 6
Solubility of glass used for making bottles 112
Solubility of lead sulfate in solutions of sulfuric acid 6
Sonde, radio 23, 123
Sonic method for studying effect of freezing and thawing on concrete 127
Sound insulation of walls and floors 58
Southeastern States, survey of roofing materials 20
Specification for hydrocolloidal impression materials for use in dentistry 101
Specification of color tolerances 45
Spectra, second and third, of xenon, Zeeman effects in 125
Spectral reflectivity of rhodium 9
Spectrochemical analysis, list of publications 24
Spectrum of chlorine, second 96
Spectrum of iron, second, pressure displacements 69
Spectrum of xenon, second 9
State Utility Commission Engineers, seventeenth conference (1939) 60
Steam, thermal properties 89
Steel floor, Keystone beam, properties 29
Steel, zinc, and cadmium coatings, measuring thickness 91
Steels, oxidation, rate of 71
Still, molecular, behavior or rubber hydrocarbon in 46
Stone-concrete block walls, structural properties 17
Stopcocks and stoppers, ground-glass, interchangeable, commercial standard 64
Stratosphere, cosmic-ray observations in 118
Stratosphere, ozone in, distribution 44
Stratosphere ultraviolet meter 24
Structural Clay Products Institute's wall constructions 114
Structural members, determination of cross-sectional areas 114
Structural properties of brick cavity-wall construction 114
Structural properties of "Fabrihome" constructions for walls and partitions 20

Page

Structural properties of "Frameless-Steel" walls, partitions, floors, and roofs 4
Structural properties of masonry walls 17
Structural properties of "Pre-Fab" walls, partitions, and floors 84
Structures, light-weight 4
Sugar, β-*d*-2-desoxygalactose, preparation and properties 34
Sulfuric acid, volatilization of metallic compounds from solutions in 35
Sulfuric acid, solubility of lead sulfate in solutions of 6
Sunspot numbers and ionization of ionosphere, correlation between 87
System CaO-Fe_2O_3-SiO_2 37
System PbO-B_2O_3-SiO_2 83
System PbO-SiO_2, X-ray studies of compounds 105

T

Tags, shipping, simplification 50
d-talose, action of baker's yeast on 34
Temperature Scale, International, and some related physical constants 36
Temperature scale, low, establishment of, for calibrating thermometers 25
Tensile properties of rubber compounds 117
Tensile specimens, rubber, toggle clamp for 46
Testing machine, large, calibration 103
Tetramethylmethane, heat of combustion 35
Textiles, flameproofing 47
Textiles, tests for quality 95
Thermal expansion of ground-coat enamel frits 16
Thermal insulation for aircraft 85, 96
Thermal properties of steam 89
Thermochemistry, assignment of uncertainties to the data of 118
Thermochemistry, specific recommendations for, in assignment of uncertainties 87
Thermometers, establishment of a low-temperature scale for calibrating 25
Thermometers for measuring snow temperatures 100
Thickness of zinc and cadmium coatings on steel, measuring 91
Tile, brick-, cavity-wall constructions 141
Tile walls, structural properties 17
Torque between concentric single-layer coils 43
Trimethylpentane, purified, physical properties 125
Turbulence and diffusion 2
Turbulence and the boundary layer 1
Twenty-ninth National Conference on Weights and Measures 63

U

Ultraviolet meter, stratosphere 24
Uncertainties, assignment of, to data of chemistry and physics 87, 118
Units of electricity and light, new 42
Utility Commission Engineers, State, Seventeenth Conference (1939) 60

V

Variable, approximation to a function of one, from a set of its mean values 87
Vegetables, cans for, proposed standard sizes 80
Volatilization of metallic compounds from solutions in perchloric or sulfuric acid 35
Voltage, optimum, of airplane electric systems 106

Wall construction, brick cavity-, structural properties	114
Wall construction, concrete-block cavity-, performance	104
Wall construction, "Dun-Ti-Stone", structural properties	104
Wall construction, foundation, Nelson pre-cast concrete	128
Wall construction, use of plywood in	128
Wall construction, reinforced-brick and brick-tile cavity-,	114
Wall paneling, solid hardwood, commercial standard	103
Walls, "Fabrihome" construction	20
Walls, "Frameless-Steel"	4
Walls, masonry, permeability	5
Walls, masonry, structural properties	17
Walls, "Pre-Fab", structural properties	84
Walls, sound insulation	58
Walls, wood-frame, structural properties	128
Washing, cleaning, and polishing materials, new circular	102
Water and steam, thermal properties	89
Water, heat and free energy of formation	35
Water permeability of bricks	73
Water supplies, over-rim, backflow prevention in	115
Wear of bearing surfaces, measuring	48
Wear resistance, relative, of concrete floors	112
Weather forecasting by radio	23, 123
Weather prediction based on radio soundings	23
Weights and Measures, National Conference, Twenty-ninth	63
Welded-steel rigid frame, strength of	71
Wet gas meters, errors	90
Wheeling long-span steel floor, structural properties	48
Wheels, grinding, sizes, simplification of	103
Whiteware bodies, glass phase and physical properties, effects of rate of heating	7
Willing-to-certify sources of supply of commodities	79
Wires, two coaxial helical, mutual inductance and force between	16
Wood-frame walls, partitions, floors, and roofs, structural properties	128
Wool, base-combining capacity	47
Wool, cystine in, photochemical decomposition	117
Wool, electrophoretic studies of	102
World-calendar plan	96
Wright Brothers Lecture, Dec. 17, 1938	1

X, Y, Z

	Page
Xenon, second spectrum	9
Xenon, second and third spectra, Zeeman effects in	125
X-ray diffraction patterns of crystalline sol rubber prepared from ethereal solution	8
X-ray diffraction patterns of rubbers	66
X-ray protection, economic features	50
X-ray studies of compounds in the system $PbO\text{-}SiO_2$	105
Yeast, baker's, action on *d*-talose	34
Zeeman effects in the second and third spectra of xenon	125
Zinc coatings on steel, measuring thickness	91
